ગર્ભસંસ્કારની વ્યાખ્યા (Concept of Garbhasanskar)

ગર્ભ + સંસ્કાર = ગર્ભસંસ્કાર

ગર્ભ ઉપર કરવામાં આવતા શ્રેષ્ઠ સંસ્કારને 'ગર્ભસંસ્કાર' કહે છે.

આયુર્વેદિક ગ્રંથોમાંથી

"સંસ્કારો હિ નામ ગુણાન્તરાધાનમ્ "

અર્થાત્ ઓછો ગુણ ધરાવતી વસ્તુ કે જીવને શ્રેષ્ઠ ગુણોમાં રૂપાંતરિત કરવાની દિવ્ય ક્રિયા એટલે સંસ્કાર...

ગર્ભસંસ્કારનું રહસ્ય (Foundational Philosophy)

જે રીતે ઉત્તમ અને ગુણવત્તાસભર પાક મેળવવા માટે સુયોગ્ય બીજ, ફળદ્રુપ અને સુસંસ્કૃત જમીન, પોષક તત્ત્વોથી સમૃદ્ધ ખાતર તથા યોગ્ય સિંચાઈ અને સંભાળ જરૂરી છે...

તેવી જ રીતે સ્વસ્થ, સુદૃઢ અને ગુણસંપન્ન સંતાનની પ્રાપ્તિ માટે માતા-પિતાના સ્વસ્થ શરીર, શુદ્ધ અને સક્ષમ પ્રજનન બીજ, સાત્ત્વિક આહાર અને સુયોગ્ય આચાર-વિહારનું વિશેષ મહત્વ છે.

સર્વાંગી વિકાસની વિજ્ઞાનસભર પ્રક્રિયા

ગર્ભસંસ્કાર એ માત્ર કોઈ ધાર્મિક વિધિ નથી, પરંતુ ગર્ભસ્થ શિશુ અને માતા-પિતાના સર્વાંગી વિકાસની એક સંપૂર્ણ વૈજ્ઞાનિક પ્રક્રિયા છે:

આહાર ઈ કસરત

યોગ્ય સાત્ત્વિક આહાર, પૌષ્ટિક પોષણ અને સુરક્ષિત ગર્ભકાલીન કસરતોનો સમાવેશ.

માનસિક સકારાત્મકતા

તણાવમુક્ત જીવન, ઉત્તમ વાચન, ગર્ભ સંગીત અને સકારાત્મક વિચારોનું સિંચન.

ભાવનાત્મક જોડાણ

માતા-પિતા અને બાળક વચ્ચેનું જોડાણ મજબૂત કરી શિશુના શારીરિક, માનસિક ઓ આધ્યાત્મિક સ્વાસ્થ્યનો પાયો.

Introducing Ayurvedic Traditional Values

Guided by Dr. Jagrut Chauhan (BAMS)

1. Counseling

Personalized one-on-one sessions addressing parental query, mindset preparation, and emotional wellbeing throughout pregnancy.

2. Ayurvedic Diet Routine

Tailored trimester-wise Ahara & Vihara guidelines according to authentic Ayurvedic classical texts.

3. Psychological Guidance

Customized book reading based on qualities parents desire in child (e.g. Manas Prakriti: Satva-Raja development).

Spiritual & Mindful Practices (Ayurveda)

- ✓ **Swadhyay & Prathana:** Daily sacred text reading and prayer sessions.
- ✓ **Meditation & Chanting:** Om chanting, Mantra recitation, maternal humming & singing.
- ✓ **Yoga & Pranayam:** Expert teaching of safe postures, breath regulation & stress control.

- ✓ **Garbha Sangeet:** Music-based relaxation & wellness (e.g., Jijabai na Halarda, Krishna theme melodies).
- ✓ **Inspirational Writing:** Motivational and spiritual writing, listening, and literature.
- ✓ **Positive Manifestation:** Structured daily mental visualization for the baby's bright future.

ગર્ભ સંવાદ (Bonding with Unborn Child)

માતા-પિતા અને ગર્ભસ્થ શિશુ વચ્ચેનો પવિત્ર સંવાદ

Bonding with love, emotion & positive vibrations

ગર્ભ સંવાદ એટલે: ગર્ભાવસ્થા દરમિયાન માતા-પિતા દ્વારા ગર્ભસ્થ શિશુ સાથે પ્રેમ, લાગણી અને સકારાત્મક ભાવનાઓ સાથે આત્મિક રીતે જોડાવાની એક દિવ્ય પ્રક્રિયા.

♥ માતા-પિતા બાળક સાથે દરરોજ વાતચીત કરે, પ્રેમભર્યા શબ્દો કહે, પોતાની લાગણીઓ વ્યક્ત કરે તથા સાથે મળીને સકારાત્મક અનુભવો વહેંચે.

Personalized Daily WhatsApp Activities

Daily tasks sent and systematically monitored via WhatsApp to boost creativity and focus

Drawing & Mandala Art

Enhance mother & baby concentration and stimulate brain creativity.

Clay & Craft Activities

Tactile sensory stimulation and relaxing fine-motor engagement.

Maths & Puzzle Games

Brain-stimulating analytical games and fun cognitive exercises.

Mind Games & Puzzles

Interactive problem-solving for mental agility.

Positive Visualization

Daily affirmations and guided mental imaging.

Physiotherapy Approach

Expert Clinical Care by Dr. Richa Madhu (PT)

Antenatal Care (ANC)

Comprehensive wellness and exercise during pregnancy.

Preparation for Labour

Biomechanical positioning & pelvic floor training.

Lactation Support

Latching techniques & postural neck/thoracic relief.

Post Partum Care

Assessment, core rehab & pelvic floor recovery.

Antenatal Care (ANC) — Education & Lifestyle

Patient Awareness & Physiology

- ✓ Detailed patient education on **psychological changes** during pregnancy.
- ✓ Clear scientific explanation of normal **physiological body shifts**.
- ✓ Building emotional resilience and reducing anxiety through maternal awareness.

Lifestyle & Rest Management

- ✓ Customized daily lifestyle modifications for optimal comfort.
- ✓ Evidence-based **nutritional guidelines** during ANC.
- ✓ Effective **sleep & rest management** strategies.

ANC Pain Management & Ergonomic Guidance

Musculoskeletal Pain Management

SAFETY PROTOCOL NOTE:

WE DO NOT GIVE PHYSIOTHERAPY ELECTRICAL MODALITIES DURING CHILD-BEARING PERIOD (e.g., TENS & Therapeutic Ultrasound are strictly avoided during ANC).

Postural & Occupational Adaptation

Guidance on safe sleep positioning, ergonomic sitting postures, and occupational modifications for daily work routines.

Breathing Exercises

Specialized breathing techniques for stress relaxation, intercostal pain management, and ribcage discomfort relief.

Pregnancy-Related Safe Exercise Protocols

Mobility & Pelvis

- ✓ Whole body gentle mobility exercises.
- ✓ Pelvic mobility & flexibility protocols.

Strengthening

- ✓ Upper & lower limb strengthening (with/without resistance in low-risk mothers).
- ✓ Gentle stretching routines.

Aerobics & Safety

- ✓ Safe aerobic conditioning.
- ✓ Precautionary measures for **Diastasis Recti Abdominis**.

Family Education & Red Flag Awareness

Paternal & Family Involvement

- ✓ Comprehensive **Do's and Don'ts** education.
- ✓ Paternal & family awareness sessions.
- ✓ Partner involvement for supportive communication.
- ✓ Teaching partners comfort massage techniques for labour support.

Warning Signs & Red Flags

Educating parents on critical signs that require immediate contact with the medical consultant:

- ✓ Vaginal bleeding or fluid leakage.
- ✓ Severe abdominal pain or sudden swelling.
- ✓ Decreased fetal movements or persistent high fever.

GarbhaSetu Daily Wellness Journal

Daily Tracking Components

- ✓ Daily food intake & sleep hours log.
- ✓ Medication & water intake tracker.
- ✓ Exercise completion checkboxes.
- ✓ Follow-up dates & session saver box.

Body Weight & Positive Mindset

Educating mothers on healthy weight progression during pregnancy while fostering a **positive body-image approach** throughout motherhood.

Labour Preparation & Techniques

Partner Emotional Support

Partner or relative active involvement for emotional reassurance and tactile stimulation techniques during labour.

Breath Control in Labour

Teaching rhythmic breath regulation to manage contraction waves effectively and conserve maternal energy.

PFM Relaxation

Pelvic Floor Muscle (PFM) relaxation techniques to facilitate smooth passage during delivery.

Physio Ball Positioning

Optimal maternal positioning using the physio birthing ball during active labour.

Labour Pain Management & Packages

Pain Relief Modalities

Usage of **TENS** (Transcutaneous Electrical Nerve Stimulation) & therapeutic massage for non-pharmacological pain relief during labour.
Cooling pads provided for pain management after vaginal delivery.

Included Package

Package Plan 1

Comprehensive Labour Counselling sessions included within the standard package structure.

Add-On Presence

Package Plan 2

Practitioner physical presence & dedicated support during active labour.

Extra Charge: ₹700/-

Lactation Support — Core Essentials

Correct Latching Technique

Hands-on guidance for achieving an optimal, painless latch to ensure effective milk transfer and infant comfort.

Mother's Positioning

Ergonomic positioning techniques for the mother during feeding sessions to prevent fatigue.

Postural Guidance

Spinal alignment strategies to protect mother's back during prolonged nursing hours.

Neck & Thoracic Pain Mx

Targeted physiotherapy interventions for upper back, neck, and chest muscle strain relief.

Specialized Breastfeeding Care & Guidance

Nipple Shield Advice

Clinical advice & guidance on using nipple shields for flat, inverted, or cracked nipples.

Breast Massage & Pumps

Therapeutic breast massage techniques & teaching mother breast pump operation if needed.

Lactation Nutrition

Specialized dietary guidelines during lactation to support milk supply and maternal recovery.

Post Partum Assessment & Management

Early Stage: 0 – 3 Weeks

- ✓ Comprehensive post partum assessment.
- ✓ Education about Pelvic Floor Muscles (PFM) using anatomical 3D models.
- ✓ Breathing exercises & gentle mobility routines.
- ✓ Early post-natal pain management.
- ✓ Functional activity progression.

Recovery Stage: 6 – 12 Weeks

- ✓ **Diastasis Recti** assessment & specialized management.
- ✓ Functional rehabilitation for daily activities.
- ✓ PFM bio-feedback training using **Vonfidans** tool.

Specialized Post Partum Guidelines

Neonatal care and maternal nutrition

Newborn guidelines & maternal nutritional advice per classical Ayurveda.

C-Section Incision Care

CS incision positioning advice & scar mobilization. (In-situ infection Mx: ₹250 per session extra).

Abdominal Binder

Clinical advice for abdominal binder usage (strictly under gynecologist guidance).

Equipments & Electrical Modalities

1. Post-Delivery Pain Relief

TENS & Therapeutic Ultrasound: Specialized physical therapy electrical modalities utilized strictly *after delivery* for rapid pain management and tissue healing.

2. Pelvic Floor Training

Electrical Stimulation (ES): Targeted PFM training used in post-partum recovery for incontinence, pelvic organ prolapse, and vaginal laxity.

Physio Ball for Positioning

Birthing Ball Positioning

- ✓ Essential equipment for pelvic mobility during pregnancy and active labour.
- ✓ Relieves lower back pressure and opens the pelvic outlet.
- ✓ Encourages optimal fetal positioning prior to delivery.
- ✓ Supports active labour comfort and pelvic floor relaxation.

TENS & ES (Electrical Simulator)

Advanced Pain & PFM Therapy

- ✓ **TENS Unit:** Effective non-invasive pain management during labour and post-natal recovery.
- ✓ **Electrical Muscle Stimulator (ES):** Used in post-partum rehabilitation.
- ✓ Helps treat post-partum urinary incontinence, prolapse, and muscle laxity.

Therapeutic Ultrasound

Deep Tissue Healing

- ✓ Provides deep thermal and acoustic wave therapy post-delivery.
- ✓ Accelerates tissue healing, reduces inflammation, and relieves muscular spasms.
- ✓ Safe, targeted application for post-partum musculoskeletal recovery.

Vonfidans & Strengthening Tools

Vonfidans

A specialized clinical tool designed specifically for Pelvic Floor Muscle (PFM) assessment and targeted rehabilitation in women.

Dumbbells & Resistance Bands

500g – 1 kg Dumbbells and Resistance Bands utilized for safe strengthening exercises in both ANC & PNC stages.

Figure 1: Vonfidans

Clinic Ambiance & Special Facilities

AC & Sound System

Fully air-conditioned, serene facility equipped with high-quality speakers for relaxing Garbha Sangeet.

Calming Lighting

Specialized soothing yellow ambient lighting designed specifically for deep Meditation and Dhyan sessions.

Weight Reduction

Dedicated post-partum weight reduction equipment (available exclusively at Sanidhi Physiotherapy Clinic).
